

FP1 COMPLICATIONS & MANAGEMENT

From challenges to solutions

A clinical lecture with **Dr Rokas Jancevicius** on how to prevent, identify and manage the complications that can compromise fully digital FP1 cases.

**DATE**

Thursday 22 October
2026

**TIME**

6:00 – 7:30 PM
Evening lecture

**LOCATION**

1 Lyric Square, London W6 0NB

REGISTER NOW

INVITATION ONLY

01 FIND A MENTOR, NOT JUST COURSES

A mentor shortens your learning curve by sharing experience, not just information. Learn from someone who has already solved the problems you are about to face.

03 DON'T EXPECT THE LABORATORY TO KNOW HOW TO DESIGN YOUR CASES

Either train your lab, or work with one that is already experienced in FPI.

02 THERE IS NO COMPLETELY SAFE PATH TO MASTERING FPI

Accept that mistakes are part of the learning process—but learn from every one of them.

04 COMPLETE AT LEAST FIVE CASES USING AN ANALOG WORKFLOW

It teaches you control and helps you understand every step. If you start with a fully digital workflow, it's easy to lose control without realizing it.

FPI COMPLICATIONS & MANAGEMENT

An evening with **Dr Rokas Jancevicius** on the complications that can compromise fully digital FPI cases: how to prevent them, how to spot them early and how to manage them when they happen.

CLINICAL TAKEAWAYS

Know where FPI cases fail

What to do when FPI doesn't go to plan

Control the tissue. Control the restoration.

Prevent complications before they happen

DON'T JUST LEARN HOW TO DO FPI LEARN WHAT TO DO WHEN IT GOES WRONG

DATE	Thursday 22 October 2026
TIME	6:00 – 7:30 PM
VENUE	1 Lyric Square, London W6 0NB
ENTRY	Invitation only
