Sales Training & Lead Automation

Klicco Marketing is a dental growth agency built for implant clinics that want to attract more qualified patients and convert more full-arch cases. Through brand strategy, content production, paid advertising, SEO, lead tracking and sales training, Klicco connects clinical excellence with bold, performance-driven growth.

COURSE SYNOPSIS

Modern Digital Full Arch Workflows – Bristol is a focused one-day educational event designed to introduce clinicians to the key digital systems shaping contemporary full-arch dentistry.

The course will guide delegates through the complete clinical journey, from digital planning and the Simply Guided workflow to iCam photogrammetry, Final X and practice marketing growth strategies. Led by Eddy Marku, Andreas Tsoutsos and Samuel Philip, the programme will combine clinical education, workflow insight and business development in a small-group setting.

The aim is to position Inserta as a complete partner for clinicians looking to simplify full-arch treatment, improve workflow control and explore future opportunities within the Final X ecosystem.

COURSE PROGRAM

ADDRESS

110 Aztec W, Almondsbury, Bristol BS32 4TS

AIM & OBJECTIVES

1. Understand the principles of modern digital full-arch workflows and how they support FP1–FP3 treatment planning.
2. Recognise how prosthetically driven planning influences implant positioning, surgical execution and restorative outcomes.
3. Understand the Simply Guided workflow and the role of stackable guides in full-arch implant treatment.
4. Identify how guided surgery can support accuracy, efficiency and immediate loading protocols.
5. Understand the role of iCam photogrammetry in full-arch data capture, passive fit and restorative accuracy.
6. Gain an introduction to the Final X workflow and how it connects digital capture,
