PREMIUM VENUE

Aztec Hotel & Spa, Bristol — easy to reach, built for business, and the right setting for a focused Final X workflow day.

ABOUT THE COURSE

More Full-Arch. Less Chair Time. is a one-day Final X course designed for clinicians who want to make full-arch treatment more efficient, more digital and easier to scale.

Led by Eddy Marku, Gareth George and Angela Stoilova, the day will break down the full workflow from case preparation and digital planning through to iCam photogrammetry, data capture and the lab-side production of the restoration. the focus is simple: how to reduce unnecessary chair time, connect the clinical and laboratory workflow, and create a more predictable route from surgery to teeth.

The official Final X Protocol is built around guided implant placement, iCam scanning, CAD design, prototype verification and restoration delivery, with definitive full-arch restorations seated at surgery and passive fit verified photogrammetrically.

MEET YOUR SPEAKERS

EDDY MARKU

Practice & Lab Owner, International Speaker, Full Mouth Rehabilitations

Eddy began his dental technology career in Milan, graduating in 2007. With over 16 years of expertise he focuses on implant restorations, FP1 concepts and complex cosmetic cases. As a lecturer at UNICAMILLUS in Rome, he teaches full-mouth rehabilitation and continues to advance the field through education.

GARETH GEORGE

VP of Sales, Imetric 4D

Gareth George is Vice President of iMetric 4D, a leader in optical metrology and 4D scanning for digital dentistry. With nearly 20 years of global experience, he advances innovation through collaborations with clinicians, researchers and universities to refine digital workflows and improve scanning accuracy.

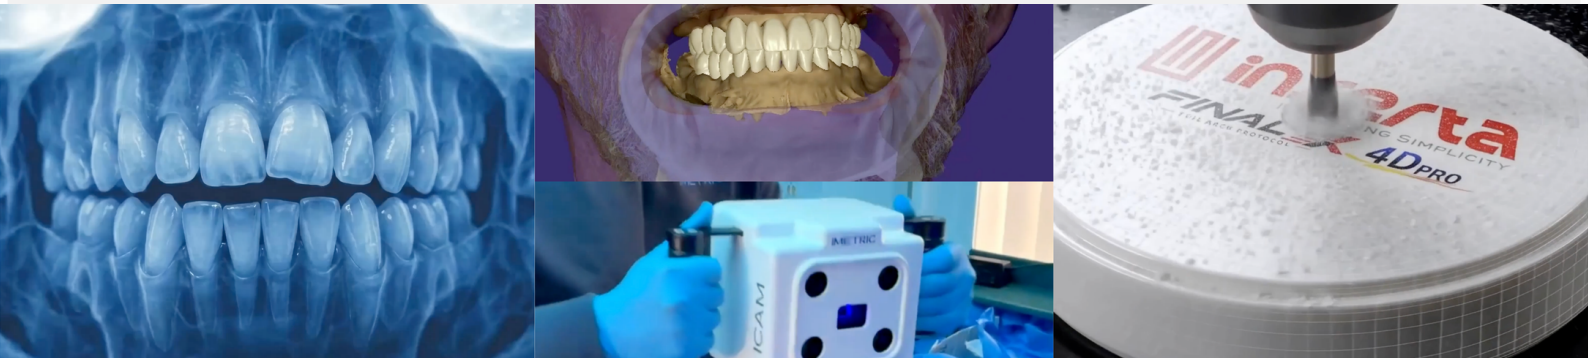

ANGELA STOILOVA

Dental Technician, CAD/CAM & Guided Surgery Specialist

Angela, a skilled dental technician with a Bachelor's in Dental Technology, was inspired by her mother's dental lab in Macedonia. Moving to the UK in 2019, Angela has specialised in implant planning, excelling in full-arch restorations using cutting-edge tools like Exocad, 3Shape, and RealGUIDE.

WHO SHOULD ATTEND

- General dentists moving into implant dentistry
- Implant dentists refining digital full-arch protocols
- Dental hygienists & therapists supporting implant teams
- Practice managers overseeing digital workflow adoption

COURSE PROGRAMME

ADDRESS	Aztec Hotel & Spa - 110 Aztec W, Bristol. BS32 4TS
9:00 AM	Welcome & Introduction
9:15 AM	Case Preparation, Digital Planning & Workflow - Eddy Marku
10:30 AM	Coffee Break
10:45 AM	Surgical Execution & Stackable Workflow - Eddy Marku
12:15 PM	Final X Workflow Breakdown - Eddy Marku
1:00 PM	Lunch (Included)
2:00 PM	Hands-on iCam Photogrammetry Workflow - Gareth George
3:30 PM	From Digital Data to Printed Teeth - Angela Stoilova
4:30 PM	Clinic-to-Lab Workflow Discussion - Eddy Marku, Gareth George & Angela Stoilova
5:00 PM	Close

WHAT YOU WILL LEARN

- How to prepare the case before surgery - Records, planning and restorative-driven decisions.
- How the lab builds the teeth - From digital data to prototype, printing, finishing and delivery.
- How to structure the surgical workflow - Stackable guides, implant positioning and immediate-load thinking.
- How to reduce chair-time pressure by making the workflow more controlled before, during and after surgery.
- How iCam fits into the workflow - Photogrammetry capture, position verification and passive fit.

REGISTRATION FORM

Please complete this form and send it to education@inserta-dental.com
