INNOVATING SIMPLICITY

**EDDY MARKU**

---

**Diploma Dental Technology**  
**Practice & Lab Owner**  
**International Speaker**  
**Full Mouth Rehabilitations**  
**FP1 Digital Protocol**

Eddy's career in dental technology began in Milan, where he graduated in 2007. Over 16 years, he has honed his expertise in implant restorations, focusing on the FP1 concept and complex cosmetic cases. As a lecturer for the International Master in Implant Dentistry at UNICAMIL-LUS in Rome, Eddy specializes in full-mouth implant rehabilitation, sharing his expertise to train the next generation of professionals. Through his lectures and clinical work, he has significantly influenced dental technology, inspiring others to elevate patient care and advance the field globally.

**CONSTANTINO LOIZIDES**

---

**Dr. Constantino Loizides**  
**Associate Dentist**  
**GDC No. 69005**

Constantino is experienced in orthodontics, oral surgery, implant dentistry and digital dentistry, and has also been a VT trainer since 2010. As a dentist, he enjoys daily interaction with his patients and being able to make them smile. His interests outside of work include sailing, scuba diving, fishing and fine dining.

## COURSE SYNOPSIS

This one-to-one course is tailored for professionals aiming to advance their expertise in full arch rehabilitation, leveraging the latest in digital technology. Participants will gain hands-on experience in a fully integrated digital workflow. The focus is on streamlining processes to achieve predictable, efficient, and long-lasting outcomes.

Special emphasis is placed on precision-driven workflows over individual techniques, highlighting how optimized protocols can reduce chair time, increase accuracy, and improve patient satisfaction. A unique feature of the program is the opportunity to assist one-on-one in a live full arch surgery, allowing participants to observe and engage with real-world applications of the digital workflow.

Attendees will leave with the practical skills and confidence to incorporate these advanced digital techniques into their own practices, ensuring superior results in full arch cases.
