## COURSE SYNOPSIS

This course focuses on full arch guided surgery with stackable guides and innovative abutment design, highlighting immediate loading and prosthetic pick-up protocols.

Participants will gain an overview of digital planning, precise implant placement, and efficient prosthetic pick-up techniques for immediate and long term temporization. Emphasis is placed on achieving functional and aesthetic provisional restorations during surgery, reducing chair time while ensuring accuracy.

This course is ideal for implantologists, prosthodontists, oral surgeons, and technicians who are experienced in implant dentistry and want to refine their skills in guided full arch surgery.
