SPEAKER PROFILE

Eddy's journey in dental technology commenced in Milan, where he completed his studies in 2007. Armed with a solid educational foundation, Eddy embarked on a career that would span over 16 years, marked by an unrelenting dedication to mastering the complexities of implant restorations with special interest in FP1 concept and challenging cosmetic cases.

Eddy has become synonymous with tackling the most intricate implant and cosmetic cases. His precision and attention to detail have not only earned him a stellar reputation in UK but have also positioned him as a global authority in the field. Eddy has lectured in numerous international locations, captivating audiences with his insights and contributing significantly to the advancement of dental technology.

Eddy's influence extends beyond clinical practice. He has been a lecturer for the International Master in Implant Dentistry at the International Medical University of Rome (UNICAMILLUS). Specialising in full mouth implant rehabilitation, Eddy imparts his extensive knowledge to aspiring professionals, shaping the future of implant dentistry on a global scale.

Eddy's legacy is marked by a transformative impact on the dental profession, both in the UK and internationally. As he continues to push the boundaries of what is achievable in dental technology, Eddy remains a beacon of inspiration for those who share his passion for elevating the standards of patient care and advancing the frontiers of dental excellence.

COURSE SYNOPSIS

This course focuses on full arch guided surgery with stackable guides and innovative abutment design, highlighting immediate loading and prosthetic pick-up protocols.

Participants will gain an overview of digital planning, precise implant placement, and efficient prosthetic pick-up techniques for immediate and long term temporization. Emphasis is placed on achieving functional and aesthetic provisional restorations during surgery, reducing chair time while ensuring accuracy.

This course is ideal for implantologists, prosthodontists, oral surgeons, and technicians who are experienced in implant dentistry and want to refine their skills in guided full arch surgery.

COURSE PROGRAM

ADDRESS	Carisbrooke Dental Practice 238 London Road, Leicester, LE2 1RL
06.30 PM	Meet & Greet
07.00 PM	Lecture
08.30 PM	Q&A
08.45 PM	Conclusion
09.00 PM	Dinner (Optional)

AIM & OBJECTIVES

1. Understand advanced digital guided workflow for full arch surgery.
2. Explore prosthetic pick-up protocols for immediate temporization.
3. Enhance accuracy in implant placement with stackable guides.
4. Manage soft tissue and provisional restorations for optimal outcomes.
5. Improve efficiency in full arch rehabilitation with immediate function.
